

Dog house rules

Dogs are kindly reminded to bring their own bed to sleep on and towel for muddy paws. Owners are reminded that dogs tend to get distressed if left alone in a strange house. Please do not leave your dog alone in your room at any time. Please kindly ensure that your dog is not allowed on our beds and furniture for the sake of the next guests. We can only accept dogs recently wormed and treated for external parasites.

For the peace of mind of other guests and the requirements of Food Hygiene, Quality in Tourism & Trading Standards, dogs cannot be allowed in the dining room. They can sit in your car within sight through the dining room window.

Do make the most of our farm to exercise your pet. It is quite safe, being away from main roads. Please keep him/her under control to ensure the safety of farm animals and wildlife. These are a few gentle reminders for a very small minority of pet owners. £5.00/dog/night
