Why not make your own farmyard animal?

2 cups all-purpose flour
1 cup salt
1 cup cold water

Grab it from the farm shop

STEP 1

In a large bowl, mix the salt and flour together. Gradually add 1/2 cup of water and mix to a dough-like consistency. Knead the dough on a flat surface, adding a few more drops of water as needed (but not making it too moist).

STEP 2

STEP 2
Once the dough is made, you can divide it up into small portions and make lots of different shapes including Shaun and the Naughty Pigs. Once finished place the shapes on wax paper or other surface to dry. If you want to make hanging ornaments, pierce the dough through with a toothpick while it's wet.

STEP 3

STEP 3
Allow the shapes to dry for a day or two, turning them over periodically to speed up the drying process. You may need to re-pierce the hole several times during the drying process. After the shapes dry, you can use a fine grit sandpaper to gently smooth any rough edges.

BAKING ALTERNATIVE

BAKING ALTERNATE
Instead of allowing the dough shapes to air dry, you can bake them in the oven at 200°F until hard. Baking times vary depending on oven and dough thickness. Make sure the dough is completely baked. You can cover the dough with aluminum foil if it starts to darken before completely baked through.

FINISHED?
