

Our Accommodation

An attractive cluster of eight barns that have been created from the sympathetic conversion of a range of handsome farm buildings.

Retaining many of their original features including fine old beams in their tastefully appointed and very comfortable interiors, they enjoy a wonderfully peaceful rural setting on a working dairy and arable farm.

Set near to our own farmhouse, each barn boasts its own private sitting out area and access to the farm grounds where coarse fishing and farm walks, cycling and bird watching as well as the enjoyment of an outdoor hot tub combine to make Wheatacre Hall Barns the perfect place for a luxury cottage Norfolk holiday where you can relax and unwind.

For the more energetic members of the family a games room and fitness barn can be found. The youngest family members (under 5's) are not forgotten a play barn should keep them amused when they are not visiting the animals on site.

Extensive grounds with plenty of grass areas are great for football and other outside games ensure that you will have an outstanding holiday while staying in the best luxury accommodation Norfolk has to offer you.
